Objective

Polished professional pursuing long-held dream of becoming a web developer.

Professional Experience

Senior Consultant, *Column5 Consulting*   Feb 2011 – Aug 2019
Scottsdale, AZ (travel / remote)

- Guided clients through enterprise performance management software implementation, including requirements gathering, process evolution, development, training, testing, maintenance.
- Led design and implementation process, overseeing and supporting other project team members, and collaborating best practices and standard approaches.
- Implemented financial models to help businesses:
  - Analyze the business to answer managerial questions (e.g., is the company adequately staffed to meet current and future objectives).
  - Decrease time to complete monthly and yearly reporting.
  - Improve clarity of financial forecasting and reporting by implementing driver based solutions.
  - Replace disconnected Excel-based processes with integrated systematic solutions.
- Identified and mitigated project risks in collaboration with project management and stakeholders.
- Developed data transformations, business logic, and reports using proprietary scripts, SQL, table based calculation engines, and visual basic / MS Excel.
- Documented project solution and provided to the customer.

Accountant, *Babcock & Wilcox*   May 2007 – Feb 2011
Barberton, OH

- Developed and maintained departmental monthly and yearly reporting using MS Access, MS Excel, visual basic for applications, Hyperion, and SAP BPC.
- Developed automated reporting to flag incorrect sales orders saving 8 hours a month.
- Supported departmental users of SAP BPC ensuring a timely and informed budget.

Projects

prop-x, *Responsive properties for React / Next.js components* ↗

- A library for passing and consuming properties as an array of values indexed to a set of breakpoints.
- Retrieve property values in styled-components based on breakpoints.
- Optimize Next.js applications by moving client side logic to build time logic.
- Useful functions for transforming properties and applying additional logic.

Skills

Javascript *(ES6, React, Next.js, Jest)* • **HTML / CSS** • **SQL** • **mongoDB** • **Git** • **npm** • **CI/CD**

Education

Bachelor of Science in Accounting / Minor in Computer Science, *Miami University*   2003 – 2007
Oxford, OH
